**If you have low income and want
to talk to someone, in confidence...**

*We are a voluntary organization and ask for a
donation of £3-£10 for each session*

Face to Face is a confidential counselling service which was established in 1993.

The adult service is exclusively for those with low income who are over the age of 18.

Our service for children and young people (aged 9-17) is for any income group.

Our young adult service is available to 18-25 year olds.

Long and short-term 1-1 counselling is available daytime, evenings and weekends.

A therapy group operates weekly.

Couples therapy is offered (limited availability).

Counsellors work professionally and ethically.

We are a voluntary counselling organization and rely upon donations to run the service. We ask for a small donation for each session of between £3 and £10.

Face to Face offers you the opportunity:

To express thoughts and feelings

To explore problems

To get to know yourself better

To work towards living in a more satisfying way

To make an appointment with a counsellor, or for further information please telephone, email, text or write to us.

Contact details are overleaf.
